Notes

1. Most dates shown and indicated by an asterisk * are dates of burial as recorded by previous clerks, rather than dates of death. Where legible dates of death from headstones have been included instead.
2. Many older headstones are now missing.
3. The original plan showed 25 rows either side of the central path.
On site however there are only 23 rows of graves.
4. The original cemetery stopped at the row of trees 3/4 of the way down the cemetery.
5. In recent years the cemetery was extended and the fence moved away from the trees.
6. There was an established pattern of burying tiny babies on the outside of the cemetery.
7. Grave plot numbers in grey are not available for sale.
